MAIN AIMS

Provide a strategic forum to discuss the development of the Free Zones sector in terms of production, processing and forwarding goods. Plan how to foster new industrial partnerships through the development of zones, logistics and transport/warehousing facilities between production centres and world markets.

Bring together policy makers, industrial and financial corporations and funds to discuss new investment and business ideas.

Increase the role of Free and Special Economic Zones in fostering trade development and investment between the Mediterranean basin and leading global economy markets (i.e. China, ASEAN, GCC, India, etc).
